

Project Three

Robot Collage

You'll need tin foil, scissors, glue sticks and some old magazines to cut up.

Pictures of cars, watches, cameras and other mechanical things are ideal to make the different parts of the robot.

Project Four

Scribble People

You'll need wax crayons, black felt tips, scissors & pritt sticks.

Make a big multi coloured scribble. Then add arms, legs and hats with a felt tip. Eyes can be cut out and stuck on.
