

## Additional notes regarding the D of E power point's suggested websites.

Dear parents,

we have had a look through the linked websites and generally they are useful and appropriate. Some have quite a few adverts which are annoying! Here are a few notes on the websites in the hope it might save you trawling through. Hope your children engage with and enjoy some of these.

PAGE & THEME	PAGE PHOTO	NOTES
<p>Page 3. Keeping a photo diary</p>		<p>A photo diary can be digital and does not need to be printed out—especially not at the moment.</p>
<p>Page 4. Volunteering—Environmental tasks</p>		<p>The first 2 websites are pretty good—lots of ideas for a variety of activities. The ecobrick website I had trouble loading but you may have more luck.</p>
<p>Page 5. Physical—Staying fit and healthy</p>		<p>Both websites have decent ideas. Good House-keeping is ok and the CosmicKids is very good and some pupils are familiar with this already.</p>
<p>Page 6. Skills—Home living skills</p>		<p>Some useful photos to illustrate a task and may give you home skills ideas.</p>
<p>Page 7. Expedition—Adventure and fun</p>		<p>RSPB website—great - lots of crafts, games and activities. Don't ignore the 'Early Years' tab, the activities cover multi ages and abilities. Getoutwiththekids—Bingo—more complicated but could play with support. Getoutside— a few accessible ideas—origami and Woodland crafts/outdoor classroom ideas.</p>
